

### **Manifesto Statement – Caleb Geggie 17yrs**

As an MYP I would bring forward several issues on a local and national level. For example young people are given no financial education and are sent into the world knowing the names of all Henry V111's wives but we lack the knowledge to pay our bills. I also believe that the Wirral has improved so much in such little time and still has much more potential, especially New Brighton which now has the Floral Pavilion, Light Cinema, Morrisons supermarket and several restaurants, but there is still much more that could be done. I would also make a good MYP because I can see both sides of the argument and I can make a decision based on facts, not opinions. In conclusion if you want an MYP that wants to improve the Wirral and the country, who will stay true to their values and beliefs and will not alter their views under peer pressure then I am the MYP for you.
