EMILY BENNETT Age 16yrs

If elected as MYP for the Wirral, I would aspire to make a curriculum which prepares us for life available for all students which includes topics such as politics, finance and mental health. Young people should be able to talk openly about topics like mental health as we should be working to remove the stigma which is still attached to them. I sincerely believe that if I was elected as your MYP, together, we could make change.

CALEB GEGGIE Age 17yrs

I would bring forward several issues on a local and national level. I would also make a good MYP because I can see both sides of the argument and I can make a decision based on facts, not opinions. In conclusion if you want an MYP that wants to improve the Wirral and the country, who will stay true to their values and beliefs and will not alter their views under peer pressure then I am the MYP for you.

ROWAN HUGHES Age 17yrs

How many debates have there been regarding the thousands of teenagers who live on the streets without homes to go to? Or about those who cannot access the basic necessities that you and I take for granted; food, clothes, education?
So far we've looked at treating the symptoms of Mental Health, offering support or counselling, but what if we looked deeper and tried to help ease the problem at its roots. Every Young Person has the right to be heard, I intend to push for these voices to be heard.

JOEL KAY Age 16yrs

I want to join the Youth Parliament to change the disenfranchised attitude of people in our area. Many low income or unemployed people have given up on their situation improving and feel politicians only look out for themselves. I wish to change this opinion particularly among young people. It is important to show them that their voices can and will be heard. I believe I can do that and stand up for them and have their views and their issues listened to.

ELLIE – JAI WILLIAMS Age 17yrs

Supporting young people has always been one of my greatest passions. I strive to live out this passion by ensuring I am friendly and approachable amongst my peers, and by trying my best to lend a helping hand wherever I think one is needed because I think politics requires harmonisation with the art of empathy. I would like to ensure equality of education by making information about prestigious universities, work experience and apprenticeships more vocalised and accessible so all young people are presented with opportunities to succeed and excel. We are the leaders of the future; let's make it a highly educated one.
